“ *I was privileged to work with Donna for several years and got to know her better as she neared retirement. She was always pleasant and had a quiet sense of humor which often involved stories about Popeye. We will all miss her.*

“ *Donna was one of my best friends. She was insightful, kind and funny. It warmed my heart to hear her laugh because I hoped she was having a good day. She loved her family and her furry companion Popeye and enjoyed sharing stories about them. Oh, and she also liked to share her many napkins from Duncan Donuts. She had a lot of their napkins because it was one of her favorite spots. I will miss her.*

I remember Donna Rush. I always knew her by Ms. Russell. She worked a very long time at her former company! She was my former neighbor a long time ago. She was very helpful for providing rides for people in need. She made really great pizza bagels. I send my sympathy to her family. Rip Ms. Russell. Sincerely Rich Priola

“ Donna took care of me for over fifteen years and treated everyone with kindness, care and grace.. Everyday I came into work she would greet me with a smile. She was prone to laughter and good spirits even well we knew she wasn't feeling well. She was very proud of her family and loved you all very much. Pictures of you were everywhere about her desk. I have missed her since she retired. My condolences also to all who knew her. I feel very lucky to have known her at all. God Bless you Donna.

“ Donna was a super nice lady I came to know even though we were thousands of miles apart. She was my long distance secretary for several years before retirement. We became friends and remained so after retirement. We didn't see each other but once. We talked on the phone and through emails. Shared photos of our families, grandbabies, fur babies and whatever else we were talking about. She will be missed. My heart and prayers go out to her family who she loved so very much.
