“ Ken was to me, the co-worker that you just want to spend more time with. Always generous with his knowledge, smiling through tricky situations and achieving so much without celebration.

One day, as I was waiting at the barber for my turn, Ken walked in and I vividly remember feeling a great sense of ease come over me. I can count on one hand how many others in my life have had that ability.

I will miss Ken but remember him with all the warmth and kindness that he shared.

“ Ken was an amazing person. Smart, Funny, Caring, and most importantly - patient. He taught me so much about paper making ... and then I'd make him do it all again just so I made sure I got it right! And you know what - he never complained ... at least not to my face :) I really enjoyed working with Ken. I will miss our discussions about work and chit chats about life. I enjoy seeing all the memories and pictures of him posted in this feed. Ken, you are so missed - throughout all of H&V. There wasn't one person you didn't impact. I wish your family all the love and support needed to get through this tough time.
With deepest condolences,

“ To the Gargan family,
It was a very sad day for me when I was told Ken had passed away, I meet Ken in 1999 at the west Groton mill for the first time, and from that time until he passed away I have great memories of how helpful he was to me and others over that time. He was one of the nicest person I have ever meet, he always had a smile and was very polite. You know in life you can be lucky to meet a great person and for me it was Ken. Ken was one of those people you never found it hard to talk to him about anything, he was very knowledgeable about most things in life. I will miss him.

“ Ken and I shared a similar background as we both graduated with our MS degree from the Institute of Paper Chemistry in Appleton (albeit a few years apart). I met Ken for the first time back in 1985 after returning to West Groton having worked a short stint in East Walpole and a year at the Apizaco plant in Mexico. We worked closely together over the next 34 years on multiple projects and took many trips together to run process trials both in the US and in Germany. He was my navigator, my mentor, my colleague but I am most proud to say he was my friend. His appetite to share his wide spread knowledge was immense and his unwavering ability to solve problems is well recognized at H&V. I will miss him dearly as will everyone that knew him well. –

“ I met Ken in 1990 when I visited first time USA mills. He was a support man in my visit and I remember his serious mode, but also had a frank smile for me. I hope to see him in heaven. Adolfo Diaz from Apizaco, Mexico.

While Ken was in Winchcombe, I picked up so much from him and I always liked his can do attitude.
Ken was a genuine bloke with a heart of gold, he always took an interest in others and was happy to just have a chat about anything. He will be missed by many here.
