“ I am so sad to hear of Carole’s passing. I first met her when I was her twin grandchildren’s kindergarten teacher. She was so sweet and it was evident that day how much family meant to her. As her family made their way through the school, Carole and I became friendly. We shared the title “Cancer Survivors” and she sent me positive messages throughout my treatment. I only knew her for a short time but I grew to quickly admire her love for her family, fur babies, and life in general. She was always positive. Sending prayers of strength and love to her family. Carole made a lot of lives brighter.

Grammy, I'll always remember playing the alphabet game in the car where we would think of a word for each letter of the alphabet. I also remember that walk you Alyssa and I took in the woods we heard a loud noise and we all ran back to your house. I remember when I was a baby laying on your bed and you would play the three little pigs game with my toes the time Grampa wanted to take a "shortcut" home and ended up being a two hour long ride you made that fun for us. Love and miss you. Luke.
