“ Donna was my sweet little fun loving sister always had a great smile and laugh,. A memory I will never forget is, we as kids always loved weird pets we had squirrels, crows,skunks, etc. One night after being out I came home to see all the lights on in the back yard, and there is Donna and my brother looking under the back stoop. What are you doing I asked? They told me That Tammy is back (the Skunk) How do you know its her I said she has been gone for months, I said , Donna just look at her she looks the same, well you are not going to convince me with that they all look the same, Donna said we reached out to grab her and she didn't even offer to spray, well okay I'll take a look..... yep it was black and white and looked like Tammy, so that sweet little girl convinced me to put on a pair of gloves and try to grab her, you'll see she said she won't even offer to spray!!!! I put my gloves on because she would bite from time to time, Donna said go ahead grab her!!. and like a dumb big brother I reached out to grab her and no I didn't need the gloves because she sprayed me right between the eyes, and what do you think that sweet little girl did?... yes she laughed her head off. Donna we'll all miss your laugh.

Donna was a beautiful person inside and out. When you talked to her, she gave you her undivided attention. She loved people and her dog, Sandy. I will always have wonderful memories of her. Rest for now.
