“ *To Susan's Family,*

*I was very fortunate to work with Susan for many years going back to the days at Assabet Savings. We would always talk about Maynard and share many memories. Susan reached out to me when she was diagnosed as I had recently gone through the same health issues. I would often have meetings up on the third floor in Natick and made sure to arrive a little early so I could see Susan and catch up. The only consolation for all of you is knowing that Susan is now pain free. Cherish the memories of this beautiful woman and let them help you get through the difficult days ahead. My deepest sympathies to all of you.*

“ Dean & Family,  
I am so sorry about the loss of Susan. She was an amazing person and I am so thankful that I was able to know her and bond with her, especially over these past few years. Susan & I were diagnosed very close together and we shared lots and lots of stories about our journey together, we even ranted about how stupid our hair came back in, after losing it to chemo, we talked about our treatments and how they just weren't fun and how our families mean the most to us. She always talked about her family and that is because you are all so special to her. We consider her family too here at Middlesex and I am going to miss her so much. I will keep all of you in my prayers.

“ Susan was one of the most genuinely kind people I had the pleasure of bumping into while working in the Natick Branch of Middlesex Savings Bank. She always took the time to have a genuine conversation given her busy day. What a wonderful human being. Thank you for sharing her with us.
