“ I have great memories with Will, we go back all the way to elementary school, and middle and beyond. school. He was one of my very first boyfriends. 😍 I can still see the smile on his face every time I think about him. I only think of him with a smile on his face. We definitely had some really great times. You will forever be in my heart, I think about and talk about you still to this day. There are just some people who you meet in life that leave an imprint that you will forever keep. Rest Easy My Friend.
